

QR3.15 Working in the Electrified Territory (WET)

Details

This course is an entry level induction for all people who need to work within the Queensland Rail electrified territory. It provides detailed knowledge about the electric traction system and how to work safely in the electrified territory. The course covers the prevention of injury and avoidable incidents within the Queensland Rail environment. It also provides basic guidance to report incidents and emergencies effectively.

On successful completion of all assessments, students will receive:

Certificate of Achievement

QR3.15 Working in the Electrified Territory

This course aligns to specific requirements of Queensland Rail's Electric Traction System Standard MD-10-191

Entry Requirements

QR3.2 Safely Access the Rail Corridor

Assessment

Theory Assessment (Open Book)

Delivery Method

Half Day classroom based Face to Face workshop

Recertification

The Queensland Rail Certificate of Achievement, QR3.15 Working Safely in the Electrified Territory is valid for 3 years from the date of training.
